April 14, 2020

It is apparent that some people are not taking Coronavirus seriously and feel that they do not need to comply with our restrictions during this State of Emergency.

Therefore, we need to change our well-being restrictions.

Effectively immediately:

1. **No Visiting from Afar**
   We tried to provide a safe opportunity for you to visit with your family members at the residence from outside near the front deck – more than 6 feet away. It has been reported on several occasions that family members are crossing the 6 foot rope and handing items directly to the residents.

2. **Limited Hours for Delivery of Items (Monday, Wednesday, Friday, 10 am – 2 pm)**
   We have been accommodating for families who want to drop items in the office for their family members. We would deliver them after a 24 hour decontamination period. When the office is closed, people have been handing items to residents over the railings, through windows, and trying to have residents come out to the parking lot to receive them.

3. **Face Coverings Mandatory**
   If you do not have a mask/face covering on when you come to the door, the door will not be opened and your package will not be accepted.

4. **Cancellation of Sunday's Show the Love Parade**
   Due to our fear that people will gather and not stay at least 6 feet apart from each other (as witnessed in our parking lot Easter Sunday), we are cancelling the parade on Sunday. Our residents will not be on the deck watching for the event.

5. **Stay off the Property**
   If you are not dropping items off in the office, you should not be on the property. You should be following every guidance that has been issued and stay home.

**Our resident safety and well-being, as well as that of our staff that provides the essential care, is our greatest concern.**
